

### Manual for the announcement of new publications

Since 2008 the enquiry for MHH-publication data will take place at the webform <u>"Meldung neuer Publikationen</u>" (Announcement of new publications).

All publications which are used for the calculation of "Leistungsorientierte Mittel (LOM)" of the MHH and/or for appearing in the <u>MHH-Research Report</u> have to be announced using this form and must be annotated with any other required information.

#### Automatic input via PubMed

If the publication you want to report is assured in <u>PubMed</u>, you can send the data automatically onto the form.

Retrieve the article you wish to announce and select the abstract format, then click the button "MHH-Linksystem". Use the hyperlink "Hochschulbibliografie" below the headline "Internet Resources".

Publications which are not included in PubMed have to be inputted manually in the <u>form</u>.

Please keep in mind to add your department, gender, first- and last author etc.

#### MHH-University-Bibliography

On the basis of your information the library is able to generate a bibliography of all current MHH publications. This bibliography will be upgraded presented on <u>Internet</u>.

The current status may be viewed at any time. Besides bibliographic data department informations will be presented as well as the impact factor of the corresponding journal, according to the <u>Journal Citation Reports</u>.
