Studienjahr / Tertial / Zeiten / Sprache	<p>Year 3 Timetable: annually, 1 week 2020: 28 September – 2 October 9.00-18.00h, daily timetable to be announced Room: I6, seminar room 70 Language: English (portfolio to be submitted in English or German)</p>
Art und Umfang der Lehrveranstaltung	28 hours seminar
Zuordnung zum Studiengang	Humanmedizin
Eingangsvoraussetzungen	Immatrikulation in Humanmedizin, ab dem 3. Studienjahr
Lernziele	<p>Students are able to describe major goals of global health and to discuss the development and implementation within the context of health policy. They are familiar with the Sustainable Development Goals (SDGs) and able to provide in-depth information on selected SDGs. They have knowledge of the major topics of the SDGs and can explore, from a public health perspective, opportunities and strategies of SDG implementation. They have knowledge of Germany's new role and strategies in global health policy as well as of international medical humanitarian organisations. By the end of the seminar students can connect global health goals and the needs and demands of national healthcare systems; they are capable to identify and critically discuss challenges and opportunities of responding to global health goals.</p>
Veranstaltungsinhalte	<ul style="list-style-type: none"> • Global health goals, health systems and policy • Sustainable Development Goals (SDGs) • Case study 'Maternity care, women's health and children health' • Case study 'Migration and care provision for asylum seekers' • Case study 'Neglected tropical diseases' • Case study 'Environment/ air quality and health' • Case study 'Climate/ climate change and health' • Case study 'Immunisation and vaccination' • International independent medical humanitarian organisations: MsF • Germany's role in global health policy, EU global health policy • Covid-19 pandemic, global health security, local/national preparedness • Thinking global, acting local/ national
