

Curriculum vitae

Name	Roland Seifert, MD, PhD	
Researcher ID	G-3189-2013	
Date and place of birth	December 5, 1960, Berlin, Germany	
Nationality	German	
Current Position	Tenured Full Professor and Director, Institute of Pharmacology, Centre of Pharmacology and Toxicology, Hannover Medical School (MHH)	
Email	seifert.roland@mh-hannover.de	
Homepage	https://www.mhh.de/pharmakologie	
Graduate and post-graduate academic education	1979-1985	Medical School, Free University of Berlin, Germany
	1983-1985	Fellow of the German National Merit Foundation
	1986	MD degree in Medicine (graduation with honours)
	1992	PhD degree in Pharmacology ("Habilitation") on "Histamine receptors in HL-60 leukaemia cells"
Postgraduate medical education	1986-1995	Pharmacology and Toxicology, Free University of Berlin (Prof. Dr. Günter Schultz)
	1991	Accreditation as Specialist for Pharmacology and Toxicology by the Medical Board Berlin (Facharzt)
	since 2005	Authorization to conduct postgraduate education in Pharmacology and Toxicology for physicians
	2026	Accreditation as European Certified Pharmacologist
Scientific Career	1986-1995	Postdoc with Prof. Dr. Günter Schultz, Institute of Pharmacology, Free University of Berlin
	1995-1998	Postdoc with Dr. Brian Kobilka (Nobel Laureate for Chemistry 2012), Howard Hughes Medical Institute, Stanford University, Palo Alto, CA, USA
	1998-2004	Associate Professor for Pharmacology and Toxicology at the University of Kansas (KU), Lawrence, KS, USA (tenure awarded in 2004)
	2004-2008	Full Professor and Chairman, Department of Pharmacology and Toxicology, University of Regensburg, Germany
	since 2008	Full Professor and Director, Institute of Pharmacology, Hannover Medical School (MHH), Germany
	since 2019	Head of the Research Core Unit Metabolomics, Hannover Medical School (MHH), Germany
Research awards	April 1999	"New Faculty Award", University of Kansas (\$ 5,000 for research on "G-protein coupling of the histamine H ₂ -receptor")
	May 1999	"J. R. and Inez Jay Award" of the Higuchi Biosciences Center of the University of Kansas (\$ 30.000 for research on "Probes of G-protein conformational states")
	May 2002	"J. R. and Inez Jay Award" of the Higuchi Biosciences Center of the University of Kansas (\$ 30.000 for research on "Molecular and behavioural analysis of Lesch-Nyhan syndrome")
	Jan. 2023	Poulssoen medal 2022 of the Norwegian Society of Pharmacology and Toxicology

Teaching awards	2002, 2005 2010, 2012, 2013, 2014, 2015, 2016, 2017, 2018 2019, 2020, 2021, 2022	Undergraduate Teaching Excellence Award, KU Best Teacher Award from the medical students, MHH
Research topics	• G-protein-coupled receptors (particularly histamine receptors) • Cyclic nucleotides (particularly non-canonical cNMPs) • Mass-spectrometric analysis of histamine metabolites and cyclic nucleotides • Pharmaceutical market, drug safety, and drug approval • Traditional medicines, botanicals, dietary supplements • Pharmacology and Society (social media, pharmacology in TV, newspapers) • History of Pharmacology (NS era, pharmacology text book development) • Scientific integrity (AI misuse, fake papers, image manipulation) • Scientometrics and gender pharmacology	
Publications Web of Science (as per September 2026)	Web of Science Core Collection metrics: • Total documents: 661 (Web of Science), of which 661 are listed in the Web of Science Core Collection • Sum of times cited (Web of Science Core Collection): 14.780 • h-index: 62 • Weblink: https://www.webofscience.com/wos/author/record/1752652	
Books	• 60 book articles, 11 congress contributions/reports, 138 postgraduate educational articles for scientists, 65 scientific book reviews • Textbook for medical students "Basiswissen Pharmakologie" (2018) ISBN 978-3-662-56302-1 (softcover), ISBN 978-3-662-56303-8 (eBook) • Textbook for medical students "Basic Knowledge of Pharmacology" (2019) ISBN 978-3-030-18898-6 (hardcover), ISBN 978-3-030-18899-3 (eBook) • Textbook for medical students "Basiswissen Pharmakologie", 2nd edition (2021) ISBN 978-3-662-60503-5 (softcover), ISBN: 978-3-662-60504-2; (eBook) • Book for the general public "Medikamente leicht erklärt" (2021) ISBN 978-3-662-62329-9 (softcover), ISBN 978-3-662-62330-5 (eBook) • Book for the general public "Drugs easily explained" (2022) ISBN 978-3-031-12187-6 (softcover) ISBN: 978-3-031-12188-3 (eBook)	
Editorial activities	2005 2007-2014 2011-2014 2014-2015 2014-2024 since 2016 2017 Since 2021 since 2022	Book "G-Protein-Coupled Receptors" together with Prof. Wieland (Mannheim, Germany) Associate Editor of <i>J. Pharmacol. Exp. Ther.</i> Associate Editor of <i>PLoS One</i> Associate Editor of <i>Naunyn Schmiedeberg's Archives of Pharmacology</i> Member of the Editorial Board of <i>J. Biol. Chem.</i> Editor-in-chief of <i>Naunyn Schmiedeberg's Archives of Pharmacology</i> <i>Handbook of Experimental Pharmacology</i> "Non-canonical cyclic nucleotides" (volume 238) and "Histamine in health and disease" (volume 241), the latter volume together with Prof. Hattori (Toyama, Japan) Editor of "Arzneiverordnungs-Report" (Drug prescription drug report) with Wolf-Dieter Ludwig & Bernd Mühlbauer Editorial Board <i>Handbook of Experimental Pharmacology</i>

Reviewing activities		- Reviewer for research funding organisations including the German Research Foundation (DFG, Germany), Wellcome Trust (GB), American Heart Association (USA), National Institutes of Health (USA), National Science Foundation (USA), Centre National de la Recherche Scientifique (France), Telethon Foundation (Italy), German-Israel Foundation - Reviewer for leading scientific journals including <i>Nature</i>, <i>Science</i>, <i>Mol. Pharmacol.</i>, <i>Trends Pharmacol. Sci.</i>, <i>J. Neurochem.</i>, <i>J. Biol. Chem.</i>, <i>Mol. Pharmacol.</i>, <i>Proc. Natl. Acad. Sci. USA</i>, <i>Biochem. Pharmacol.</i> (Advisory Editorial Board 2004-2007), <i>NS Arch. Pharmacol.</i> (Advisory Editorial Board 2004-2007).
Mentoring activities	2007-2010 since 2022	Liaison officer to the Max-Weber program within the German Merit Foundation Liaison officer to the German Academic Scholarship Foundation
Activities within the German Society for Pharmacology and Toxicology (DGPT)	2008-2020 since 2011 2012-2021 2021-2023 2024-2029 2025 & 2027	Chair of the Postgraduate Education Committee of the German Society for Pharmacology and Toxicology DGPT representative participating in the update of the guideline for the treatment of anaphylaxia Member of the Executive Board of the German Society for Pharmacology (DGP) Vice President of the German Society for Pharmacology (DGP) Chairman of the German Society for Pharmacology (DGP) President of the DGPT
Academic self-administration	2002-2004 2005-2007 2011-2019 2011-2017 since 2018	Radiation safety officer of the University of Kansas Chief executive officer of the Institute of Pharmacy of the University of Regensburg - Member of the academic section IV of the MHH - Chairman of the Doctoral Candidate Admissions Board for Theoretical Medicine at the MHH Coordinator for the development of exam questions in the field of pharmacology at the Federal Institute for Medical and Pharmaceutical Exam Questions (IMPP) in Mainz
Postgraduate teaching	since 2011	Lectures for the German Society of Pharmacy
Congress organization	2010-2016 2014 2025 2027	Biannual cCMP meetings (Hannover, Germany) Chairman of the 80 th annual meeting of the German Society for Pharmacology and Toxicology (DGPT), Hannover Chairman of the 10 th German Pharm-Tox Summit/ 91 st annual meeting of the German Society for Pharmacology and Toxicology (DGPT), Hannover Chairman of the 10 th European Congress of Pharmacology (EPHAR), Frankfurt (Germany)
Public relations activities	since 2011 since 2011	TV and radio interviews on pharmacology-related topics Writer of scientific paper reviews, journal club contributions and book reviews for <i>Biospektrum</i> and <i>Arzneimitteltherapie</i>
Academic life	since 2013 since 2017 2021-2023	Senator for cultural affairs of the MHH Oboist of the German Philharmonic Orchestra of Physicians (Bundesärztephilharmonie) President of the German Philharmonic Orchestra of Physicians (Bundesärztephilharmonie)
